

## HAIRY PET

### Required Materials

- ♻️ old stockings

- ♻️ grass seeds

- ♻️ potting soil

- ♻️ baby food jar

- ♻️ water

- ♻️ objects to decorate with, wiggle eyes, etc.

### Step-By-Step Procedures

1. Using the toe of the stocking, place the grass seeds inside.
2. Push some soil into the toe of the stocking, on top of the grass seeds (form into a ball).
3. Make sure that the ball of soil is slightly larger than the opening of the baby food jar.
4. Tie stocking into a knot at the bottom of soil ball.
5. Make sure to get the ball of soil and grass seeds wet.
6. Place the ball of soil into the baby food jar (filled with water) so that the grass seeds are on top. This will be the hair of your pet.
7. Decorate the outside of the jar in any way that you like.
8. A face can be glued to the stocking.
9. Water when needed and trim “hair” for a special look.
