   - Estimated Revenue vs. Actual Revenue (As of April 28, 2017)
     - Recycling Revenue was greater than the revenue the same time last year primarily because the commodity markets are up, so the District is getting more revenue from the commodities through S. Slesnick Company and Kimble Recycling and Disposal.
   - Budgeted vs. Actual Expenses (As of April 28, 2017)
     - Recycling Makes Sense Grant Expenses are down from the same time last year, but this is likely due primarily to timing issues and when the grantees turn in their quarterly reports.
   - Current Cash Position (As of April 28, 2017)
     - Outstanding encumbrances include purchase orders for grants and contracts. Funds are committed all upfront at the beginning of year even though payments are made throughout year.
