Executive Director’s Letter

Dear Resident,

The Stark Tuscarawas Wayne (STW) Recycling District provides you with access to recycling through our public drop offs throughout our three-county Recycling District. As we work to provide better service to you, we are now reflecting on last year’s successes.

In the past, the STW Recycling District’s large network of public recycling sites presented many challenges. We have struggled with contamination rates as high as 70% on some loads. This path was unsustainable. In response, the STW Recycling District conducted a comprehensive review of our recycling collection operation to learn how best to communicate with our residents about what recycling materials are acceptable and what materials are unacceptable. Our review included discussions with our residents, recycling drivers, staff, elected officials, and master recyclers.

The results of those discussions led to the development of new labels, signage, and a better message. As a result, we are pleased to report that we have significantly reduced our recycling contamination rates from a high of 70% to an average of 5-20%. While we acknowledge that there is still more room for improvement, we are excited about the future of our recycling collection program.

Please share with us ways we can continue to improve our recycling collection service to you.

All of us at the STW Recycling District truly appreciate your continued participation and commitment to our recycling collection program.

By recycling we can all make a difference!

David J. Held
David@timetorecycle.org
Household Recycling Done Right

1. Contact your recycler to establish the rules for recycling.

2. Identify a location to store your recyclables.

3. Find yourself a few recycling totes to separate your materials. Do your best with the space you have.

4. Start recycling!

5. Remember to rinse out your recyclables. There should be no food or liquids inside your recyclables.

6. Visit timetorecycle.org to find a location nearest you. Take your recycling to your nearest drop off. Happy recycling!

---

**Helpful Tips**

**Glass Bottles and Jars Only**
- Must be food/beverage grade
- Lids may be placed with the glass
- Recyclables must be clean, dry, and empty of all liquids, juices, foods, or other material

- ✔️ Acceptable Items: wine bottles, spaghetti jars, olive oil bottles/jugs, old coke bottles, beer bottles, etc.
- ✗ Non-Acceptable Items: window panes, mirrors, glassware, light bulbs, etc.

**Metal Cans Only**
- Can be metal, steel/tin, aluminum cans
- Must be food/beverage grade
- All recyclables must be clean, dry, and empty

- ✔️ Acceptable Items: vegetable cans, pop cans, cat food cans, etc.
- ✗ Non-Acceptable Items: aluminum or foil food containers, scrap metal, tire rims, metal futons, tools, nails or other construction/demolition materials, engines, or parts of engines, etc.

---

**Do not place your recyclables in a plastic bag inside the bin!**

Plastic bags are considered tanglers and are not recyclable. These materials get stuck inside the machines at the sorting facilities and cause major delays, drive up costs, and place employees’ lives at risk when they have to remove them. Do your part by bringing your recyclables loosely in a reusable cardboard box or plastic tote. Dump your recyclables loosely inside the bin and take your cardboard box or plastic tote home for reuse. Plastic totes do not belong in the recycling.
Plastic Bottles and Plastic Jugs Only

- Plastic bottle or jug must have a neck and shoulders to be recycled
- Keep your caps on the plastic bottle or jug
- Plastic bottles and jugs must be clean, dry, and empty
- Do not crush the bottles or jugs

✔ Acceptable Items: milk jugs, water bottles, pop bottles, laundry detergent jugs, bleach jugs, etc.

✗ Non-Acceptable Items: plastic bags, garbage bags, plastic hampers, laundry baskets, plastic toys, plastic containers with food/liquid waste, plastic kitchen utensils, 5-gallon buckets, plastic bottles or jugs with motor oil or other car related materials in it, etc.

Paper Only

- Paper should be clean and dry
- No gloss paper or foil wrapping paper
- Remove any plastic materials that might be on envelopes if possible

✔ Acceptable Items: wrapping paper (unless it has non-paper additives like metallic flakes, glitter, and plastics. Foil, metallic and heavily laminated wrapping paper should also be thrown away instead of recycled), envelopes, office paper, non-glossy magazines, mail, newspapers, copier paper, full-sized construction paper, manila folders, etc.

✗ Non-Acceptable Items: paper made of foil, plastic coating, ribbons, paper with bows and glitter, glossy magazines, paper soiled in glitter or other materials, paper towels, toilet paper, etc.

Flattened/Broken Down Cardboard Only

- Corrugated cardboard only
- Flatten all cardboard
- Remove all Styrofoam and any other material before placing the flattened cardboard into our bins
- Remove any labels or tape if possible

✔ Acceptable Items: corrugated cardboard or box cardboard

✗ Non-Acceptable Items: mat board, paper towels, toilet paper, grease covered pizza boxes, etc.
School/Civic Group Presentations

Wendy Bullock, our full-time Outreach Coordinator, is available for classroom and area civic group presentations. Her presentations vary from lessons on recycling, composting, conservation, waste reduction, and natural resources. Ask us about our Puppet Show! Remi the Recycling Monster is an expert at explaining “Clean, Dry, and Empty” to kids. Presentations with Remi are appropriate for students in Pre-K – 2nd grade.

Master Recyclers Make a Difference

The Stark-Tuscarawas-Wayne Master Recyclers are adding value to our organization by assisting us in our mission to divert as much material from landfills as possible. In May of 2021, members of the Master Recycler program successfully assisted the district at its Household Hazardous Waste Collection in Tuscarawas County. This is just one example of how they continue to make a difference. If you are interested in becoming a Master Recycler and making a difference in your community, contact us at 330-874-2258 and ask for Wendy! Visit timetorecycle.org for more information.

The District also offers the following programs:

• Recycling Receptacles Loan Program
• Litter Collection Kit Loan Program
• ABC Promise Partnership Bench Program
• Request a Volunteer

For more information about programs offered at STW Recycling District, visit us at timetorecycle.org.

Wendy Bullock, Outreach Coordinator
No Illegal Dumping

See Something, Report It!

Call your Stark County Sheriff Dispatch today to report illegal dumping. Signs may vary per site.

New Signage

The Recycling District is implementing new signage at recycling sites to assist residents.

ITEMS NOT ACCEPTED AT THIS SITE

RC. 3767.32

- NO TRASH
- NO CLOTHING
- NO TVS OR ELECTRONICS
- NO FURNITURE OR CARPET
- NO APPLIANCES
- NO PLASTIC BAGS
- NO TIRES
- NO HAZARDOUS WASTE OR PAINT
- NO YARD WASTE
- NO TOYS
- NO BUILDING MATERIALS
- NO MATTRESSES

NO DUMPING!

SITE UNDER VIDEO SURVEILLANCE!

VIOLATORS WILL BE PROSECUTED WITH A FINE OF UP TO $500! RC. 3767.32

IF YOU SEE ILLEGAL DUMPING, CALL 330-430-3800
Effective January 1, 2021, the Canton Recycle Center and all District collections require an appointment to drop off materials. This is helping to better serve the residents of Stark, Tuscarawas, and Wayne Counties by reducing their wait time and ensuring that the staff at the center operate in a safe and efficient manner. To make an appointment, visit timetorecycle.org/hhw-appointments

**Hours of Operation:**
Tuesdays and Fridays from 9am – 3pm. Holiday hours and closures will be posted by the City of Canton.

---

**Tuscarawas & Wayne County Residents:** Be on the look out for hazardous waste collections in your area. Check out timetorecycle.org for upcoming events.

---

**✓ Household Hazardous Waste**

Motor oil, mixed gas, kerosene, diesel, gasoline, anti-freeze, fluorescent light bulbs, aerosols, oil-based paint, bleach, household cleaners, mercury containing devices, and lead acid batteries only.

**✗** No propane, oxygen, butane, or any other cylinders/tanks.

- Must be from your house and not from a business, commercial entity, church, not-for-profit, or farm. For your safety, bring items with vapors in closed containers.
- Bring materials in plastic totes if there is a possibility of leaking. Your tote will be returned to you if you wish (the only exception is fuel). Do not bring materials in plastic bags or cardboard boxes if possible.
- Please make sure that all caps are secured tightly.

- All kerosene, diesel and gasoline should be brought in NFPA-approved containers (plastic gasoline cans with cap secured or laundry detergent jug with secure cap). Your container will not be returned to you.
- Do not mix bleach and ammonia. This combination can be fatal.
- How to Identify Oil Based Paint: Look on the back of the paint can for the clean-up section. Oil based paints must be cleaned up by mineral spirits or paint thinner. Latex can be cleaned up with water and soap. We do not accept latex and should be reused or thrown away in your trash.
**Appliances**
- Small and large appliances accepted.
- Freon does not need to be removed from your fridge or other freon containing appliance.
- No food or other materials may be inside. The Recycling Center has the right to refuse appliances with any food, liquid or other material inside.

**Electronics**
- All electronics are accepted.
- Do not bring the items in a plastic bag.
- A plastic tote or cardboard box should be sufficient. We will return any tote or cardboard box you wish to reuse.
- If you have a large quantity of items, please keep like items together and do not mix items.

**Passenger and Light Truck Tires Only**
- On/off rim, residents are allowed 10 tires per person per year.
- According to the law, you may only transport 10 or less at a time.
- You must have your ID with you.
- No business/ commercial/ nonprofit/ government.
- Must be from your house and not from a business, commercial entity, church, not-for-profit, or farm.

**Scrap Metal**
- We accept Ferrous and Non-Ferrous metals.

**Televisions**
- Tube-style and flat screen televisions are accepted.
- Tube-style televisions will be collected and sent to the landfill (they are not recyclable). This service is brought to you by the City of Canton.
- Flat screen televisions will be recycled.
**× No Batteries**

- **✓** Lead acid batteries are the only exception and are accepted – ex. car batteries.

All alkaline batteries are non-hazardous and may be disposed of in your trash. You may take your other rechargeable batteries to a participating store by visiting call2recycle.org to find a participating location near you – many local Home Depot and Lowe’s stores participate in Call2Recycle®.

**× No Building Materials**

We follow the Ohio EPA’s definition of building materials. You can find disposal sites near you by visiting timetorecycle.org.

**× No Clothing**

Gently used clothing may be donated to the Salvation Army or other similar organizations. Otherwise, dispose of your clothing in your curbside trash.

**× No Cylinders**

Examples: Propane, fire extinguishers or other tanks.

- **✓** For propane recycling instructions, visit bluerhino.com/about/rhino-feed/recycling-tips. Blue Rhino locations offer a free recycling program for 20 lb. grill tanks. If you have a gas grill propane tank that you would like to recycle, write “RECYCLE” on the tank and take it to any Blue Rhino location – they will refurbish it if possible. If the tank does not meet the company’s safety and quality standards, they will recycle the tank. Blue Rhino will accept any standard gas grill tank, including other brands.

- **✓** Small propane or butane canisters for a camp stove, lantern, or torch (usually 2 lb. or less) are not refillable and can be recycled through a scrap metal yard. Make sure the canister is empty by attaching it to the device it is used with and allowing the gas to run until it’s gone or use a tool to decompress the item. If there is no scrap metal recycling available, and all the gas is released, the canister may be discarded in the trash. Refrigerant gas, welding tanks and medical cylinders should be disposed or recycled through the company it was purchased or received.

- **✓** Empty helium balloon tanks that were purchased from a retail store should be punctured and recycled at a local scrap metal yard. You may receive a rebate. Follow the disposal instructions that came with the tank or see these instructions.
from Balloon Time: balloontime.com/how-to/recycle. Helium tanks are not accepted in the household hazardous waste disposal program.

- **Medical cylinders** should be disposed of or recycled through the company it was purchased or received. Check with your medical supplier for details about their takeback or exchange program. If you are unable to determine where the oxygen tank came from, recycle the tank at a scrap metal yard near you. Determine if the tank is aluminum or stainless steel (magnets stick to stainless steel, not aluminum). Find a scrap metal yard by visiting timetorecycle.org. Call ahead to confirm that they accept stainless steel or aluminum tanks and what their requirements are.

**No DEA Regulated Material and Bio-Medical Waste**

Drugs and other substances that are considered controlled substances under the Controlled Substances Act (CSA) are divided into five schedules. An updated and complete list of the schedules is published annually in Title 21 Code of Federal Regulations (C.F.R.) §§1308.11 through 1308.15. Substances are placed in their respective schedules based on whether they have a currently accepted medical use in the United States, their relative abuse potential, and likelihood of causing dependence when abused. Many police departments in your area have prescription drug drop offs. Visit timetorecycle.org to find a pill drop off near you.

**No Explosives**

Contact your local police department to report explosives that are found or how to properly dispose of these items.

**No Latex Paint**

Latex paint should be dried out with kitty litter and allowed to dry. Once dry, throw away in your trash. Latex paint is not accepted at the Recycle Center.

**No Furniture/Carpet**

Check with your waste hauler to see if there is an extra charge to take furniture to the landfill. If they don’t have a process or do not take the items, visit timetorecycle.org for a list of landfills in your area.

**No Mattresses**

Mattresses may require special preparation. Call your waste hauler first to see what they require to safely pick this item up.

**No Plastic Bags**

Check with your local retailer to see if they collect and recycle plastic bags. If not, throw them away in your trash.
No Smoke Detectors
A smoke ionization detector can be returned to the manufacturer for proper disposal or you can legally dispose of it in the regular trash. Manufacturers of smoke detectors are mandated by the Nuclear Regulatory law 10 CFR 32.27 to see that the radioactive waste is disposed at a nuclear waste disposal facility. When sending back a smoke detector, do not take it apart. Return the entire smoke detector by ground mail (not air mail). Before shipping, remove the batteries and place them in the trash. No special packaging is needed for your smoke detector – put it in a box, consider adding some newspaper for padding, and send it. You must call the company before sending. If you are unable to return a smoke detector to the manufacturer, place it in the regular garbage for disposal. Smoke detectors are not accepted in our hazardous waste disposal program.

Smoke Detector Manufacturers
Kidde/Firex – 800-880-6788
First Alert/BRK – 800-323-9005, ext. 2
Honeywell – 800-328-5111, ext. 4
Sears – 617-252-3500
USI Electric – 800-390-4321, ext. 238

No Tractor, Bus, ATV, Lawn Mower, Bicycle, or Other Non-Passenger/Light Truck Tires
Contact Liberty Tire (Stark County) at 330-868-0097 for disposal information for these tires. There will be a cost for the disposal.

No Trash
Dispose of your trash in your curbside waste or contact a local hauler for special requests.

No Yard Waste
Yard waste sites are available in Stark, Tuscarawas, and Wayne Counties. Please see the list of sites on page 13.

No Toys
Consider donating these gently used items to a goodwill or salvation army near you for reuse or dispose of your toys in the regular trash.
What To Do With Yard Waste

List of Sites Open to Residents

Call the local community for days and hours of operation. Residential only – no business/commercial.

- Brewster
  145 ½ First St. SW, Brewster, OH, 44613

- Canton Township
  4711 Central Ave. SE, Canton, OH, 44707

- Nimishillen Township
  4915 N Nickelplate St., Louisville, OH, 44641

- Perry Township
  1500 Jackson Ave. SW, Massillon, OH, 44646

- Dennison Village
  20 Welch St., Dennison, OH, 44621

- Lawrence Township
  10867 Industrial Pkwy. NW, Bolivar, OH, 44612

- City of Dover
  100 North Tuscarawas Ave., Dover, OH, 44622

List of Sites Open to Businesses, Commercial Entities, and Residents

Call the business for days and hours of operation. Charges may apply.

- Paradise Compost
  4300 Mechanicsburg Rd., Wooster, OH, 44691

- Bull Country Compost
  10316 Kohr Rd. NW, Dundee, OH, 44624

- Earth ‘n Wood
  5335 Strausser St. NW, North Canton, OH 44720

What do they accept?

The above sites accept leaves, grass trimmings, brush, wood chips, and shrub/tree trimmings. Yard waste should not include roots or stumps that exceed six inches in diameter.
# Recycling Drop-Off Sites

All locations open dawn to dusk unless noted.
